# ARNOLD K. NJAMBI

## WEB DEVELOPER

After completing software development training program at Power Learn Project Africa organization, I graduated as a junior front-end developer. Presently I have 1+ years of experience in front-end development. I don't only possess strong creative skills and analytical thinking skills but I am as well a team player with an eye for detail.

I am flexible, reliable and possess excellent time keeping skills. I am as well self-motivated, responsible and hard-working person. Finally, I am happy to say I am a conscientious and a person who believes nothing's perfect and that there's always room for improvement. Open minded and ready to learn new things and at the same time disciplined.

## EXPERIENCE

### JUNIOR WEB APPLICATION DEVELOPER

Personal Projects
2023 - Present

- Created a responsive e-commerce website platform for agribusiness.
- Created a custom-auto website.
- Also built a weather projection simple web-app program.
